

1/2" Pres-Seal

Heat Resistant Mastic Sealant

Pres-Seal is a versatile extruded mastic sealant that delivers reliable, economical sealing for industrial applications. With over 50 years of proven performance, our sealant is trusted by leading companies in power generation, marine, and industrial filtration.

Key Benefits

- Non-corrosive & non-oxidizing
- Self-extinguishing properties: Fire Resistance - <15 sec. per MIL-S-17377D FMVSS 302 SE/O
- Easy peel-and-stick application: Simplifies installation with a user-friendly adhesive backing
- Stays flexible at ambient temperatures
- Flash Point > 500°F

Ideal Applications

- Boiler doors and access openings
- Case and duct systems
- Heat exchangers
- Sheet metal joints and irregular surfaces
- Dusty/Dirty Environments
- Material processing and grinding
- Foundry operations / Wood processing
- High-temperature applications / Combustible dust
